The Intelligencer

An Educational State Institute to be Held at Parkersburg. We have received the following docu-

ent from the State Superint CHARLESTON, April 28, 1870. A State Institute is hereby appointed to be held at Parkersburg, commencing A. M., to continue through Wednesday Thursday and Friday. An Institute being a temporary Normal School, the ex

plication of fertilizers, if there be such, I heartily congratulate the owners, and advise them not to sell. Nor do I believe that there are many acres so fertile that they would not produce more indian corn, more hemp, more cotton, and more of whatever may be their appropriate staple, if judiciously fertilized. If there be farms or fields or girdsally so youd that manure be held at Parkersburg, commencing Tuesday, June 28th prox., at 9 o'clock, A. M., to continue through Wednesday, ing a temporary Normal School, the ex-ercises during the day will consist of in-struction and drill in the several branches and subjects involved in Teaching. Each night there will be a popular Lecturee on some educational topic. The several de-partments will be conducted by the folso bounteously; but that very luxuriance of growth insures their gradual exhaus-tion of certain elements of crops, which ELOCUTION-By Prof. Robert Kidd, of

ARTHMETIC AND GEOGRAPHY—By apt. Wm. Mitchell, City Supt. Schools, ontonious, Ohio. GRAMMAR, ANALYSIS, &c.—By Hon. E. White, Editor of the Ohio Educationa

GYMNASTICS-Prof. S. R. Thompson Principal State Normal School.

| THEORY AND PRACTICE—The General

uperintendent.
The citizens of Parkersburg very gen isly guarantee free entertainment to l'eachers, county Superintendents, and ers, in regular attendance upon the In-ite; and the Baltimore & Ohio Railritute; and the Hallmore & Ohio Rali-oad will return free those who pass over ne road in going to it. The expense of tending will, therefore, be very slight, a comparison with the great advantages be secured by the Institute.

It is also proposed to reorganize a State eachers' Association, in connection with the Institute.

to do) by at least equal re-enforcements of the productive capacity of his fields. The good farmer begins by inquiring, "Wherein was my soil originally deficient? and of what has it been exhausted by subsequent crope?" I judge that my grav-elly hill-sides would reward the applica-tion of two hundred loads (or tuns) of pure olar per area, as I think the clay flats I, therefore, urgently request every county Superintendent in the State to attend, that he may become better fitted to discharge the duties of his office; and I suggest that county Supervisors allow Superintendents per diem for the time, activities and the superintendents per diem for the time, activities and the super statement. Teachers I, therefore, urgently, request every courty Superintendent in the State to attend, that he may become better fitted to discharge the duties of his office; and I suggest that county Supervisors allow Supervisors allow Superintendents per diem for the time actually spent in such attendance. Teachers, who aspire to a front rank among the Profession in the State, will hardly fail to be present. The iriends of education generally are also invited to attend.

An examination of candidates for a State Professional Certificate will also be held on the last day of the Institute. All wishing such certificates will do well to be present then; as, except in very extraordinary cases, no private examination for such certificate will be held.

Some of the best educational talent in the nation has been employed to assist in conducting the Institute, the 'clizzens of Parkersburg are enthusiastic in making the amplex preparations to criterian it.

twenty acres of arable upland, it I could buy them, delivered, at twenty-five cent per bushel; but they are not to be had, doubt that there are a hundred acres warm, dry, gravelly or sandy soil east of the Alleghanies that would not amply reward a similar application. But Ashe in quantity are not to be had since no good farmer sells then and Coal is the chief fuel or at them and Coal is the chief fuel or at the are villages. The Marls of New Jersey ludge fully comal in negrous value to Ashe Parkersburg are enthusiastic in maki the amplest preparations to entertain and now let the Superintendents, Teac and now let the Superintendents, Teachers and friends of education, do their part, and the Institute will be a most gratifying

In enclosing us the above document Prof. Williams writes as follows in his

the array of talent, in Instructors, which has been secured. Hon. E. E. White, you know, as one of the very foremost educators of the land. Capt. Mitchell, educators of the land. Capi. Mitchell, though less known, is scarcely his inferior in practical work. Prof. Kidd, too, you know, as one of the first elocutionists of the times, nover failing to excite the highest interest. Prof. Thompson is thoroughly posted in Dr. Dio Lewis' system of Gymnastics, and will make that feature a pearled attraction."

The Youngest Mother in the Coun try.
From the Minneapolis Tribune, April 21.

From the Minneapolis Tribune, April 21.

We published several months since an item setting forth that a girl only cleven years of age had become a mother, in Howard Lake township. Wright county, This item wentthe rounds of the papers, and was received with different degrees of belief. We are now enabled to state that this child-woman, with her infant, is now in this city. We "interviewed" her yesterday and found fer of modium size for fire age—rather good-looking—with light plue ages and dark hair. She is four iest eight and three-quarter inches high, and weighs eighty pounds. The child weighed seven nounds five ounces when it was begrin on the 38th of December last, and now pulls down filteen pounds. It "fivors the mother" in its looks, and is as good-lookon the 28th of December size, and now pulls down fifteen pounds. It "fivors the mother" in its looks, and is as good-look-ing as the average of bables of the same age. The real name of the mother is Penola R. Wilkins, and the child is to be

Penolia R. Wilkins, and the chief acalled May Twilight.
The father of the child is John Slaughter, who was boarding in the family for nearly a year before the birth of the child. He is about thirty-five years of age, and has now gone to parts unknown, having previously acknowledged that he seduced

are sware of but one similar case, which occurred, we believe, in Tennessee, where a girl of the same age gave birth to a child by her own grandfather, who is now propitiating the offense in prison.

If any doubt that there is method in the sadness of George Francis Train, the following the refuse that is deemed unfit madness of George Francis Train, the following appeal to the ladies of Oshkosh, er than that. Wisconsin, to attend an afternoon lecture | I wish some farmer who gives ex will relieve them entirely. The ladies imagined the announcement to be one of Train's jokes; whereupon Train hastened

Train's jokes, whereupon Train hastened to assure them that he was never more in a carnest, and lured them to his hall by the promise to discuss the following common sorrel is supposed to indicate an acid condition of the soil; and all who have tried know that sorrel is hard to kill by cardination! How Mothers should rear Children! Why Clergymen oppose Woman Buffrage! Why Blee poppose Woman Doctors! Why Society is Organized Hyporisy! Mr. Train adds: "Come out to-day, Don't be afraid. You must keep what you hear a profound secret! Show your pluck by filling the 'hall. It will make the head of the family furious; but don't be frightened. Come one—Come all—and show your wonshood! George usich experiments would supply data whereof I am in need; and there are will do all they can to keep you away, this will be left at your houses while the men. do all they can to keep you away, this will be left at your houses while the men have gone to whoke their cigars and gossip about the new sensation. G. F. T. GHANCERY NOTICE

An Old Fashioned Welcome.

Stands H5-Walt and Reuben Walt | In Chancery. Sarah Walt, et als. In pursuance of a decree made and entered in this cause at the March term, 1870, of the Circuit Court of Ohlo county, West Virginia, it was among other things further ordered that said Commissioner makes further report aboving the names of the creditors of said catate and giving notice by publication in careful with the country of the creditors of said catate and giving notice by publication in factor for all control of the creditors of said catate to the creditors of said catate to the creditors of catate and an accordance of the country of the creditors of said estate to present and prover their elements before him on ore before a day to be fixed by him. And that said Master report such other or further matter as either party may require. Observe the gushing weirouse extended by a Georgia paper to the Governor of that State, on his return from Washing-Welcome home! Allen, and yet Go Welcome home? Allen, and yet Governor, enemy, and yet ruler, traitor, and yet dictator! Welcome home! Ohl, it were but namn! If the snakes colled about the flowers in your yard—If daggers, gleamed in the moonlight on your window still! But we are above poisoning or assassination! Live! Live where you can estrike the vitals of the State! Live, where you can poison the fountains of her land! Live, but the eternal clutch of conscience will fasten on your soul, and you are Satan it you gan be highpy.

If I should try to explain just how and why Lime is a fertilizer, I should proba If I should by to explain just how and why Lime is a tertilizer, I should probably fall; and I am well aware that liming has in some cases been overdone; yet I think most observers will concur in my statement that any region which has been limed year after year produces crops of noticeable excellence. I cite as examples Chester and Lancaster Counties, Pennsylvania, with Stark and adjacent counties of Ohio. Possibly, results equally gratifying might be secured by applying some other substance; I only know that frequently limed lands are generally good lands, as their crops do testify. I heartily wish that the flut clay intervales of Western Vermont could have a lair trial of the virtues of liming. I should expect to see them thereby rendered frishle and arable; no longer changing speedily from the semi-FIFTY CASES HOSTETTER'S BIT

Koskoo Cures Scrofula in its Worst No. 11 Main Street, Norpolk, Va., September 15, 1869. DR. Lawhersche—Dear Sir; Your Koskoo has worked wonders in my family. My daughter has been a sufferer from Scrofula since children several from her ankle, several from her arm, besides having ulcers assured to the body. While in this conditions of the body. While in this condition of the body. While in this condition of the body. While the several parts of the body. While the sound coted like a charme on her; under its use the ulcer ordulatily helded, and her general health greatly improved. It certainly saved her much suffering and perhaps her life. I regard Koskoo a specific for all scrofulous affections. Your Koskoo also cared my wife of dyspepsia, from which she suffered greatly. She is note in better health than she has been in five years.
